GENERAL BACKGROUND

For three years Lunaria has been working on activities targeted at groups of teenagers, with the aim of contributing to and investing in the creation of inclusive international communities of future adults capable of tackling the social challenges of tomorrow.

In three years, we had the chance to explore different topics thanks to the active participation of several groups of adolescents (15-17 yo) and group leaders (18+), mainly sustainability, interculturality and inclusion. In 2027, we have finally created the "REAL-NET" project which combines in itself all the information, results, observations, feedback (from partners, staff, and participants) collected thanks to this gained experience into a comprehensive educational strategy.

The aim of the project is to promote social inclusion, empathy and intercultural understanding amongst adolescents with different backgrounds (social, economic and cultural), by helping to boost their self-esteem, independence and self-awareness through experiential and playful group activities based on NFE (Non-Formal Education).

METHODOLOGY

The whole project will be based on non-formal education - NFE methodologies.

A learning by doing approach will be proposed, where each activity is based on specific learning objectives in order to better target the educational action and to ensure a coherent learning process of individuals and groups.

The **training course** is conceived to boost the participants' capacities, to share and experiment methodologies and approaches, within non-formal education, to work with teenagers in short term residential activities, as, for example, youth exchanges.

The **youth exchanges** will allow participants to experiment an intercultural learning experience, favouring the exchange with other peers, promoting inclusion and anti-discriminatory approaches.

TARGET GROUP

Young people with experiences in youth exchanges and workcamps, youth workers, facilitators, active volunteers, and activists (18+ aged)

The training program will be an opportunity to experiment and develop non formal education tools and approaches on how to work with teenagers. Therefore having previous experiences in activities targeted to teenagers or experiences in workcamps and youth exchanges is more than welcome.

NO WIFI IN THE VENUE

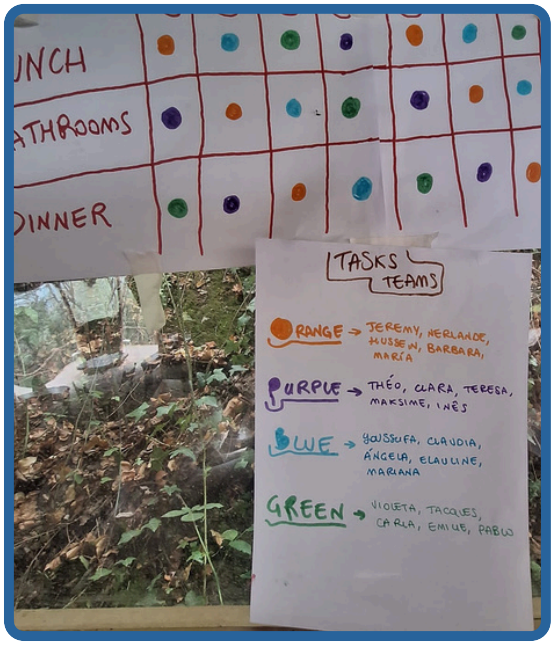
ACCOMMODATION

La Buona Terra is located in a marvellous farm in the countryside, surrounded by nature. It is composed of: dormitory with bunk beds, a multi-purposed room and an outdoor space for workshops, shared toilets and showers, a professional kitchen, and a dining room for free time and meals. It will be prepared and served by our kitchen staff.

We kindly remind everybody to inform us on scambi@lunaria.org about any specific needs concerning food or allergies.

The venue is managed by following sustainable practices (such as garbage recycling, responsible water and electricity use, etc.) and participants will be invited to follow these ones. Participants will be involved in the **daily maintenance** tasks: cleaning of the common spaces and support in the kitchen management (cleaning dishes, setting the tables, etc.).

Due to the sometimes unpredictable **water shortage in Italy**, some water cuts may occur in the hosting facilities. In case of water cut, the use of the water in the hosting structure (for showers, toilets) could be rearranged. For the whole duration of the project, drinkable water will always be guaranteed.



FOOD AND LODGEMENT COSTS for all the actions

Covered by the coordinating organization at 100%.

FINANCIAL CONDITION

The refund of the travel costs is only possible **if participants travel from and return to the country of their sending organisation.**

In order to be as sustainable as possible, Lunaria invites participants to choose the **greenest travel option** possible (e.g. carpooling, train, bus). Please, check the budget available in the table below.

- Participants' travel costs will be refunded only upon the **presentation of all the original travel documents (paper and online).**

Normally the refund process can take, approximately, **4-6 months.**

The travel costs are refunded according to the Travel Distance Calculator of the EACEA (table below):

TRAVEL DISTANCE	STANDARD TRAVEL	GREEN TRAVEL
• 10 – 99 km	28,00 €	56,00 €
• 100 – 499 km	211,00 €	285,00 €
• 500 – 1999 km	309,00 €	417,00 €
