Occupational Therapy Workshops for Adults With Intellectual Disabilities

What is your Super Power? I am volunteer!

● Description of the organization:

ADAPA Foundation works with adults with Autism and other developmental disorders, including intellectual disabilities. Mainly we are focused on the Occupational Therapy Workshops (OTW) that are designed to teach our participants how to improve their skills in everyday life by using practical methods. In ADAPA we are conducting 5 thematic laboratories that our mentees attend to: craft, art, technology, topography and cooking.

● Description of the activity:

Your main responsibilities will be helping therapists in running activities during workshops in laboratories. As a volunteer you have a possibility to conduct classes independently or with another volunteer according to own ideas and initiative. You are welcome to help with our social media, you can also create/edit videos/pictures on Facebook or Instagram.

● Who can apply?

We would like to host a person that is open to support work in Occupational Therapy Workshops. We search for a volunteer who is empathetic, ready to act and tolerant for our participants. Being creative, open-minded and patient in our work is crucial.
