Voluntary Service in Gdynia Social School

Who are we?

The school was created and is run by parents and teachers who wanted to introduce alternative methods to education. It focuses on working with kids also with unusual needs e.g. with diseases such as children's sight impairment and other health problems.

It is a small institution (160 students) for children from the 1st to the 8th grade (6-15 years).

..... ➤ **More information about school you can find in
on our web-page: <https://gss.edu.pl/>**

The work of volunteers in the school is very diverse. Besides the main activities in the primary school, there are many others outside of it: going to Polish families, hold weekly meetings with the voluntary club, organising various campaigns, doing charity and social work, playing games.

In our school, formal knowledge is not the main goal of the learning process, that is why we provide different means and instruments for children to develop their skills and abilities, find talents and interests, motivate them to realize their dreams, and you will be a part of it. Moreover, this project encourages you to implement your own ideas both in school and outside of it.

Location

Gdynia, Poland

Time

The volunteer activity should last 12 months, preferably.
